Filed: June 29, 2006

Claim Amendments:

A listing of the claims, including Claims 1, 2, 13, 16, 19, 20, 22, 24-27, 34, 41, 72 and 119-123 as currently amended, is set forth below.

- 1. (Currently Amended) An isolated cDNA molecule of a mammalian ELF3 gene, or fragment thereof at least 20 nucleotides long; wherein said cDNA molecule comprises comprising at least one intron of the ELF3 gene or at least a portion of an intron of the ELF3 gene, wherein the ELF3 gene comprises a contiguous sequence set forth in at least about 80% homologous to SEQ ID NO:10, wherein said intron is selected from the group consisting of intron 4, intron 5, intron 6, intron 7 and intron 8, and wherein said cDNA molecule is at least 20 nucleotides long.
- 2. (Currently Amended) The cDNA molecule of claim 1, wherein the intron is selected from the group consisting of intron 4, intron 5, intron 6_7 and intron 7_7 intron 8_7 and combinations thereof.
 - 3-12. (Canceled).
- (Currently Amended). The cDNA molecule of claim 1, wherein the cDNA molecule also comprises a sequence at least 90% homologous to at least a portion of SEQ ID NO:13.
 - 14-15. (Canceled).
- (Currently Amended) The cDNA molecule of claim 1, comprising SEQ ID NO:11.
 - 17-18. (Canceled).

Applicants: Mark H. Kaplan, et al.

Filed: June 29, 2006

19. (Currently Amended) The cDNA <u>molecule</u> of claim 1, <u>wherein the cDNA</u> <u>molecule comprises intron 7 or a portion thereof</u> comprising introns 4, 5, 6 and 7 of the <u>ELF3 gene</u>.

- 20. (Currently Amended) The cDNA molecule of claim 1, wherein the cDNA molecule ELF3-gene comprises the nucleotide sequence of SEO ID NO:15.
 - 21. (Canceled).
- 22. (Currently Amended) The cDNA <u>molecule</u> of claim 1, wherein the cDNA <u>molecule</u> comprises introns 4, 5, and 6, and a portion of intron 7 was prepared from a composition comprising a cell.
 - 23. (Canceled).
- 24. (Currently Amended) The cDNA <u>molecule</u> of claim 1, wherein the cDNA <u>molecule</u> was prepared from a composition comprising a cell, the cell obtained from a human patient being tested for breast cancer.
- 25. (Currently Amended) The cDNA <u>molecule</u> of claim 1 24, <u>which is at least 50</u> <u>nucleotides long wherein the patient is at high risk for breast cancer.</u>
- 26. (Currently Amended) The cDNA molecule of claim 1 22, which is at least 100 nucleotides long wherein the cell is a peripheral blood mononuclear cell.
- 27. (Currently Amended) The cDNA <u>molecule</u> of claim <u>1</u> 22, <u>which is at least</u> 500 nucleotides long wherein the cell was obtained from a tissue biopsy.

Applicants: Mark H. Kaplan, et al.

Filed: June 29, 2006

28-33. (Canceled).

34. (Currently Amended) A vector comprising the cDNA molecule of claim 1.

35. (Original) A cell transfected with the vector of claim 34.

36-40. (Canceled).

41. (Currently Amended) A set of two primers, each less than 30 nucleotides in length, wherein each primer is homologous to a portion of an ELF3 gene, and (a) wherein at least one primer is homologous to a portion of an intron of the ELF3 gene or (b) wherein each primer is homologous to a portion of different exons of the ELF3 gene, wherein the set of two primers are capable of directing RT-PCR synthesis of the cDNA molecule of claim 1.

42-71. (Canceled).

72. (Currently Amended) A probe homologous to the cDNA molecule of claim 1, the probe further comprising a detectable label.

73-118. (Canceled).

119. (Currently Amended) <u>A probe homologous to the cDNA molecule of claim 2, the probe further comprising a detectable label</u> The isolated cDNA of claim 1, wherein the ELF3 gene is at least about 95% homologous to SEQ ID NO:10.

Applicants: Mark H. Kaplan, et al.

Filed: June 29, 2006

120. (Currently Amended) A probe homologous to the cDNA molecule of claim 19, the probe further comprising a detectable label The cDNA of claim 1, wherein the cDNA also comprises a sequence completely homologous to at least a portion of SEQ ID NO:13.

- 121. (Currently Amended) A probe homologous to the cDNA molecule of claim 13, the probe further comprising a detectable label.
- 122. (Currently Amended) A probe homologous to the cDNA <u>molecule</u> of claim 16, the probe further comprising a detectable label.
- 123. (Currently Amended) A probe homologous to the cDNA <u>molecule</u> of claim 20, the probe further comprising a detectable label.
